Text-message alerts from Automated Life

I agree to receive automated text messages from William Rains for use of Automated Life, personal system-monitoring software, at the mobile number above.

What you'll get: system alerts only. A monitored service went offline or came back online, a backup failed, a reminder you set is due, or a notification is waiting in your email. No marketing or promotions.

How often: message frequency varies, up to 10 messages a day.

Message and data rates may apply.

Reply STOP to cancel at any time, and HELP for help. You can also turn texts off here.

Texts start only after you enter the code we send to this number.

Agreeing isn't required to use Automated Life.
